Turning ideas into impact with AI, code and creativity.

SKILLS

Programming Languages

- Python
- C
- Java
- JavaScript
- TypeScript
- SQL

Web Development

- HTML
- CSS
- React
- Tailwind CSS
- Node.js
- Flask
- Express.js
- MySQL
- MongoDB

AI/ML & Data

- Machine Learning
- Deep Learning
- TensorFlow
- PyTorch
- Scikit-learn
- OpenCV
- NLP
- Computer Vision
- Prompt Engineering
- Data Analysis & Visualization

Tools & Platforms

- Git & GitHub
- Docker
- VS Code
- Jupyter Notebook
- FastAPI
- Vite
- Vercel
- Netlify
- Firebase
- Supabase
- Ollama (Local LLMs)
- Google Colab / Google Studio
- Azure Foundry (Student Pack)
- MS Office & Excel
- Linux

LANGUAGES

- English — Highly Proficient
- Hindi — Native

INTERESTS

- AI & Emerging Technologies
- Building Side Projects
- Reading (Mythology & Tech)
- Travelling
- Fitness
- Anime & Games

Continuous Learning for a Smarter Tomorrow.

YASH BHARTI

AI/ML ENGINEER | FULL-STACK DEVELOPER | PROBLEM SOLVER

yashbharti2007@gmail.com +91 9625017921 Gurugram, Haryana, India
linkedin.com/in/yash-bharti-354aa4384 github.com/programeryashu @yash_bharti2007

SUMMARY

Diploma student in Artificial Intelligence & Machine Learning (2024 – 2027) with a strong foundation in AI/ML and full-stack development. Passionate about building real-world solutions, exploring new technologies, and creating products that impact people's lives. Always eager to learn, collaborate, and turn ideas into practical, scalable applications.

EXPERIENCE

Junior AI/ML Developer (Internship)

2024 – Present

AS INFOTECH — *Faridabad, Haryana (On-site)*

- Worked on AI/ML and web development projects to solve real-world problems.
- Developed and maintained modules for AI-based applications and automation tools.
- Collaborated with senior developers on design, development, and deployment.
- Gained hands-on experience with modern technologies and industry workflows.

15-Hour Live Project

May 2025

Azisly — *Remote*

- Worked on a 15-hour live project provided by Azisly.
- Collaborated with a team to design, develop, and deliver the solution within the given timeline.
- Gained hands-on experience in real-time project execution, client communication, and teamwork.
- Improved practical skills in full-stack development and problem solving.

Open Source Contributor

2024 – Present

GitHub — *Remote*

- Contributing to open-source projects related to AI/ML and developer tools.
- Working on feature development, bug fixes, and documentation.
- Actively learning and collaborating with global developer communities.

Hackathon Participant

2024 – 2025

Hack For Green Bharat | IBM BOB | Matrix 3.0 | NexHack 2.0 — *India*

- Built innovative AI-powered solutions solving real-world problems.
- Collaborated with diverse teams to design, develop, and present projects.
- Gained hands-on experience in rapid prototyping and product development.

PROJECTS

AgriConnect — AI-Powered Agricultural Platform

2025

AI-based crop price prediction, weather alerts, voice-enabled IVR, and a direct farmer marketplace.

Python XGBoost LSTM Prophet FastAPI React SQL IoT

Face Recognition Attendance System (SentinelID)

2024

Real-time face recognition based attendance system with a modern web interface and mood prediction AI.

React TypeScript OpenCV face_recognition NumPy HTML CSS

Prediction Arena

2024

Game platform with Aviator, Spin Wheel, Tic Tac Toe, Chess Arena and points system.

React Node.js Express MongoDB Tailwind

Online Bookstore System

2024

Full-stack web application for buying and managing books online.

Flask MySQL HTML CSS JavaScript

Arora Lab — Autonomous AI Engineering Platform

2024

Multi-agent AI platform with specialized agents for research, development, marketing and operations.

Python AI Agents FastAPI React Docker Vercel

ACHIEVEMENTS

- 1st Runner Up in Debugging Competition
- Participated in Far Away Hackathon and selected for the 2nd round
- Participated in IBM Lab AI Hackathon
- Participated in multiple national-level hackathons (Hack For Green Bharat, Matrix 3.0, NexHack 2.0)
- Active open-source contributor on GitHub
- Built and deployed 5+ real-world projects
- Consistently learning and exploring new technologies
