Letter of Appreciation

Awarded to the Top 10% of Performers in the Cohort

To Whom It May Concern,

I am pleased to recommend **Yash Bharti (Dpg Polytechnic College)** , who successfully completed the **Azisly Impact Sprint: 15-Day AI Live Project** and the **30 Hours Course**, a consulting-based, real-world business simulation powered by Azisly.ai and Partnered Companies.

Yash Bharti ranked among the **top 10% of participants** in this highly competitive cohort, demonstrating exceptional performance across analytical thinking and practical applications of AI in real business scenarios.

Throughout the program, the candidate consistently demonstrated strong analytical ability, professional rigor, and the capability to translate AI concepts into actionable business insights. Work across areas such as prompt engineering, research, and structured presentations reflected a high level of intellectual curiosity, discipline, and execution capability.

The candidate further distinguished themselves through a proactive approach, attention to detail, and the ability to deliver high-quality outcomes under tight timelines.

Based on this performance, I am confident that **Yash Bharti** will be a valuable addition to any organization, particularly in roles requiring structured problem-solving, analytical depth, and a results-driven approach.

Pras. Chou.

Sincerely,
Prasun Choudhary
Founder, Azisly.ai
